IFMA's Sustainability Facility Professional (SFP) credential is an opportunity for FMs with an interest in efficiency, data-driven decision-making and sustainable practices. By earning your SFP designation, you will develop and gain recognition for your expertise in sustainable FM practices while impacting your organization's economic, environmental and social bottom lines.

**Bank on the success of the SFP.**

Earn your SFP to sharpen your expertise in efficiency and sustainable FM practices that impact your organization's triple bottom lines.

- **New Benefit:** Digital Badge for safe online recognition & instant verification.**
- The average five-year return on investment of IFMA credentials is 15:1 for credential holders*
- On average, IFMA credentials lead to a US$6,000 salary increase within the first year. *
- **Maximize efficiencies and streamline operations** to boost your triple bottom line: people, planet and profit
- Learn to use knowledge-based, data-driven methods to drive decisions and develop valuable solutions
- Gain recognition and credibility as an informed champion with a unique sustainability skill set.
- **No pre-requisites, no renewal costs** and earn 30-70 general CE hours towards your LEED maintenance.
- Brought to you by IFMA, a non-profit organization that grows by empowering facility professionals worldwide

**SFP Course Topics:**

The SFP provides a complete picture of how FMs can improve eight major categories of sustainable facility management:

- Energy
- Water
- Materials & Resources
- Workplace Management
- Indoor Environmental Quality
- Quality of Services
- Waste
- Site Impact

The SFP Course topics above are covered throughout these FM concepts:

- Strategy & Alignment for Sustainable Facilities
- Managing Sustainable Facilities
- Operating Sustainable Facilities

**Who should become an SFP?**

- Facility management practitioners with a baseline of FM industry knowledge.
- Experienced FM professionals transitioning into sustainability related positions.
- Related industry practitioners such as architects, designers, energy managers and safety engineers.

Having an SFP gives you the recognition and credibility you deserve as an informed champion with a unique decision-making and program development skill set.
